

Computer Skills Multiple Choice Question Bank

Choose one answer for each question. Every question has four options. The answer key begins on a new page after Question 57.

1. Which of these is an example of computer software?

- ☐ A. A keyboard
- ☐ B. Microsoft Word
- ☐ C. A monitor
- ☐ D. A printer

2. Which of these software packages is a “spreadsheet”?

- ☐ A. Word
- ☐ B. Excel
- ☐ C. PowerPoint
- ☐ D. Access

3. Which of these software packages would you use to write a letter?

- ☐ A. Word
- ☐ B. Excel
- ☐ C. PowerPoint
- ☐ D. Access

4. Which of these software packages would you use to create a presentation?

- ☐ A. Word
- ☐ B. Excel
- ☐ C. PowerPoint
- ☐ D. Access

5. What is a network?

- ☐ A. A collection of computers linked together
- ☐ B. Software that can damage your computer
- ☐ C. A way of logging onto a computer
- ☐ D. A program used to create presentations

6. What does “e-mail” stand for?

- ☐ A. Everywhere mail
- ☐ B. Everybody mail
- ☐ C. Electronic mail
- ☐ D. Express mail

7. What is an attachment?

- ☐ A. An image that is inserted into a document
- ☐ B. A file that is sent with an e-mail
- ☐ C. A person using a computer
- ☐ D. A password used to open an account

8. Should you meet somebody you have met on-line without telling your parents?

- ☐ A. Yes
- ☐ B. No
- ☐ C. It depends how long you have been talking
- ☐ D. Only if they send you a photograph first

9. Which of these is classed as “social media”?

- ☐ A. Google
- ☐ B. Android
- ☐ C. Facebook
- ☐ D. Microsoft Word

10. What is a “computer virus”?

- ☐ A. Software that can damage your files or computer
- ☐ B. When your laptop gets spots
- ☐ C. A video which is very popular on YouTube
- ☐ D. A tool used to organise files

11. What is an “algorithm”?

- ☐ A. A set of instructions
- ☐ B. A computer program that doesn't work
- ☐ C. A way of testing computers
- ☐ D. A device used to connect to the Internet

12. Which command stores the latest changes made to an existing file?

- ☐ A. Print
- ☐ B. Save
- ☐ C. Close
- ☐ D. Undo

13. What is the difference between "Save" and "Save As"?

- ☐ A. Both do exactly the same thing
- ☐ B. "Save" updates the file, "Save As" creates a new copy with a new name/location
- ☐ C. "Save" deletes the file, "Save As" keeps it
- ☐ D. "Save" only works once, "Save As" works every time

14. Why is it important to save your work with a sensible name?

- ☐ A. To make the file easier to find later
- ☐ B. Because the computer won't work otherwise
- ☐ C. Because it makes your teacher happy
- ☐ D. To make the filename as long as possible

15. If you have already opened Word, how would you open a document you have saved?

- ☐ A. Click "Insert" then "Picture"
- ☐ B. Click "File" then "Open" and choose the document
- ☐ C. Click "Review" then "Spelling and Grammar"
- ☐ D. Type the name of the document on the keyboard

16. What is a folder and why are they used?

- ☐ A. A folder is a physical storage box used for paper files
- ☐ B. A folder is an icon used only for games
- ☐ C. A folder is a way of storing and organising multiple files together on a computer
- ☐ D. A folder is the same thing as a file

17. What is a computer program?

- ☐ A. A collection of instructions that a computer follows
- ☐ B. A physical part inside a computer
- ☐ C. A folder used to store documents
- ☐ D. A cable that connects a computer to a network

18. A Scratch script starts when the space key is pressed, then repeatedly moves 10 steps and bounces at the edge. What will the sprite do?

- ☐ A. The sprite moves 10 steps only once, then stops.
- ☐ B. When the space key is pressed, the sprite continuously moves 10 steps and bounces off the edges.
- ☐ C. The sprite moves to the edge and disappears.
- ☐ D. Pressing the space key makes the sprite remain in its starting position.

19. A Scratch script repeatedly checks whether the sprite is touching the mouse pointer. When it is, the sprite hides, waits one second, and then shows. What will happen?

- ☐ A. The sprite disappears for one second whenever the mouse pointer touches it, then reappears.
- ☐ B. The sprite hides for one second when it's not touching the mouse pointer, then shows again.
- ☐ C. The sprite moves away from the mouse pointer.
- ☐ D. The sprite changes its appearance every second continuously.

20. A Scratch script puts the pen down, then repeats four times: move 50 steps and turn 90 degrees. What will it draw?

- ☐ A. Draw a straight line by moving 200 steps continuously
- ☐ B. Draw a circle by moving in small steps and turning slightly each time
- ☐ C. Draw a square by moving and turning four times, with the pen drawing lines
- ☐ D. Move forward 50 steps and then stop

21. What is software?

- ☐ A. The physical parts of a computer
- ☐ B. Programs and applications that run on a computer
- ☐ C. A cable used to connect devices
- ☐ D. Information printed on paper

22. Which formatting command places text midway between the left and right margins?

- ☐ A. Align left
- ☐ B. Centre
- ☐ C. Align right
- ☐ D. Justify

23. Which formatting command makes selected text appear thicker and darker?

- ☐ A. Italic
- ☐ B. Underline
- ☐ C. Bold
- ☐ D. Highlight

24. Which command places a duplicate of selected content on the clipboard?

- ☐ A. Cut
- ☐ B. Paste
- ☐ C. Delete
- ☐ D. Copy

25. Which tool identifies words that may be spelled incorrectly?

- ☐ A. Word count
- ☐ B. Find and replace
- ☐ C. Spell check
- ☐ D. Print preview

26. Which statement best describes the Internet?

- ☐ A. A single website owned by one company
- ☐ B. A worldwide network that connects computers and devices
- ☐ C. A program used only for writing documents
- ☐ D. A folder where downloaded files are stored

27. What is the Internet?

- ☐ A. A single website where all information is stored
- ☐ B. A worldwide network of connected computers that share information
- ☐ C. An app used for chatting with friends
- ☐ D. A type of social media

28. How would you find and save an image using Google?

- ☐ A. Wait for the image to appear on your desktop
- ☐ B. Type the image name into Word and press enter
- ☐ C. Ask the teacher to send it to you
- ☐ D. Open Google Images, search, right click the picture, then choose "Save As"

29. Should you trust everything you find on the internet?

- ☐ A. Yes, everything online is true
- ☐ B. No, you should check if the source is reliable
- ☐ C. Only if the website looks professional
- ☐ D. Only if your friends share it

30. Which of these software packages is a "spreadsheet"?

- ☐ A. Word
- ☐ B. Excel
- ☐ C. PowerPoint
- ☐ D. Access

31. Which of these software packages would you use to write a letter?

- ☐ A. Word
- ☐ B. Excel
- ☐ C. PowerPoint
- ☐ D. Access

32. Which of these software packages would you use to create a presentation?

- ☐ A. Word
- ☐ B. Excel
- ☐ C. PowerPoint
- ☐ D. Access

33. What is a network?

- ☐ A. A collection of computers linked together
- ☐ B. Software that can damage your computer
- ☐ C. A way of logging onto a computer
- ☐ D. A program used to create presentations

34. What does "e-mail" stand for?

- ☐ A. Everywhere mail
- ☐ B. Everybody mail
- ☐ C. Electronic mail
- ☐ D. Express mail

35. What is an attachment?

- ☐ A. An image that is inserted into a document
- ☐ B. A file that is sent with an e-mail

- ☐ C. A person using a computer
- ☐ D. A password used to open an account

36. Should you meet somebody you have met on-line without telling your parents?

- ☐ A. Yes
- ☐ B. No
- ☐ C. It depends how long you have been talking
- ☐ D. Only if they send you a photograph first

37. Which of these is classed as “social media”?

- ☐ A. Google
- ☐ B. Android
- ☐ C. Facebook
- ☐ D. Microsoft Word

38. What is a “computer virus”?

- ☐ A. Software that can damage your files or computer
- ☐ B. When your laptop gets spots
- ☐ C. A video which is very popular on YouTube
- ☐ D. A tool used to organise files

39. What is an “algorithm”?

- ☐ A. A set of instructions
- ☐ B. A computer program that doesn’t work
- ☐ C. A way of testing computers
- ☐ D. A device used to connect to the Internet

40. Which command stores the latest changes made to an existing file?

- ☐ A. Print
- ☐ B. Save
- ☐ C. Close
- ☐ D. Undo

41. What is the difference between “Save” and “Save As”?

- ☐ A. Both do exactly the same thing
- ☐ B. “Save” updates the file, “Save As” creates a new copy with a new name/location
- ☐ C. “Save” deletes the file, “Save As” keeps it
- ☐ D. “Save” only works once, “Save As” works every time

42. Why is it important to save your work with a sensible name?

- ☐ A. To make the file easier to find later
- ☐ B. Because the computer won’t work otherwise
- ☐ C. Because it makes your teacher happy
- ☐ D. To make the filename as long as possible

43. If you have already opened Word, how would you open a document you have saved?

- ☐ A. Click “Insert” then “Picture”
- ☐ B. Click “File” then “Open” and choose the document
- ☐ C. Click “Review” then “Spelling and Grammar”
- ☐ D. Type the name of the document on the keyboard

44. What is a folder and why are they used?

- ☐ A. A folder is a physical storage box used for paper files
- ☐ B. A folder is an icon used only for games
- ☐ C. A folder is a way of storing and organising multiple files together on a computer
- ☐ D. A folder is the same thing as a file

45. What is a computer program?

- ☐ A. A collection of instructions that a computer follows
- ☐ B. A physical part inside a computer
- ☐ C. A folder used to store documents
- ☐ D. A cable that connects a computer to a network

46. A Scratch script starts when the space key is pressed, then repeatedly moves 10 steps and bounces at the edge. What will the sprite do?

- ☐ A. The sprite moves 10 steps only once, then stops.
- ☐ B. When the space key is pressed, the sprite continuously moves 10 steps and bounces off the edges.
- ☐ C. The sprite moves to the edge and disappears.
- ☐ D. Pressing the space key makes the sprite remain in its starting position.

47. A Scratch script repeatedly checks whether the sprite is touching the mouse pointer. When it is, the sprite hides, waits one second, and then shows. What will happen?

- ☐ A. The sprite disappears for one second whenever the mouse pointer touches it, then reappears.
- ☐ B. The sprite hides for one second when it’s not touching the mouse pointer, then shows again.

- ☐ C. The sprite moves away from the mouse pointer.
- ☐ D. The sprite changes its appearance every second continuously.

48. A Scratch script puts the pen down, then repeats four times: move 50 steps and turn 90 degrees. What will it draw?

- ☐ A. Draw a straight line by moving 200 steps continuously
- ☐ B. Draw a circle by moving in small steps and turning slightly each time
- ☐ C. Draw a square by moving and turning four times, with the pen drawing lines
- ☐ D. Move forward 50 steps and then stop

49. What is software?

- ☐ A. The physical parts of a computer
- ☐ B. Programs and applications that run on a computer
- ☐ C. A cable used to connect devices
- ☐ D. Information printed on paper

50. Which formatting command places text midway between the left and right margins?

- ☐ A. Align left
- ☐ B. Centre
- ☐ C. Align right
- ☐ D. Justify

51. Which formatting command makes selected text appear thicker and darker?

- ☐ A. Italic
- ☐ B. Underline
- ☐ C. Bold
- ☐ D. Highlight

52. Which command places a duplicate of selected content on the clipboard?

- ☐ A. Cut
- ☐ B. Paste
- ☐ C. Delete
- ☐ D. Copy

53. Which tool identifies words that may be spelled incorrectly?

- ☐ A. Word count
- ☐ B. Find and replace
- ☐ C. Spell check
- ☐ D. Print preview

54. Which statement best describes the Internet?

- ☐ A. A single website owned by one company
- ☐ B. A worldwide network that connects computers and devices
- ☐ C. A program used only for writing documents
- ☐ D. A folder where downloaded files are stored

55. What is the Internet?

- ☐ A. A single website where all information is stored
- ☐ B. A worldwide network of connected computers that share information
- ☐ C. An app used for chatting with friends
- ☐ D. A type of social media

56. How would you find and save an image using Google?

- ☐ A. Wait for the image to appear on your desktop
- ☐ B. Type the image name into Word and press enter
- ☐ C. Ask the teacher to send it to you
- ☐ D. Open Google Images, search, right click the picture, then choose "Save As"

57. Should you trust everything you find on the internet?

- ☐ A. Yes, everything online is true
- ☐ B. No, you should check if the source is reliable
- ☐ C. Only if the website looks professional
- ☐ D. Only if your friends share it
